

How to Choose the Right Commercial Real Estate Agent!

"FINDING WHAT'S BEST FOR YOU"

Commercial Real Estate is Very Different from Residential. There are many different types of Commercial Real Estate...

Office, Industrial, Land, Investment, Retail, Churches, Schools & many more such specialties.

When you need Brain Surgery, you go to a Brain Surgeon, not a Family Practitioner. Knowing the Brain Surgeon had **Extensive, Specialized** training gives you the assurance you are going to have the best care available.

The same holds true in the area of Commercial Real Estate. The **Commercial Real Estate Specialist** will give you the specialized representation you need and deserve when making important financial decisions.

Each property type has additional **Specialized** education a Professional can take. We can earn designations unique to our specialty by completing educational courses, meeting transaction quotas & fulfilling the qualifying number of years in Commercial Real Estate.

Ask Questions!

Don't be afraid to ask questions. A good agent will educate you and explain the process in detail if you want to know. It is the responsibility of the professional to talk in terms that you understand and explain things clearly.
